(BS) = Biomedical Science in Brief (BC) = Biomedical Comment
(TA) = Thesis Abstract (L) = Letter

Subject index

Afipia
  Cat-scratch disease: epidemiology, aetiology and treatment, 101(BE)
Alcoholism
  Type A g-aminobutyric acid ($GABA_A$) receptor subunits and benzodiazepine binding: significance to clinical syndromes and their treatment, 111(BE)
Ammonia
  Ammonia vapour in the mouth as a diagnostic marker for infection with *Helicobacter pylori:* preliminary 'proof of principle' pharmacological investigations, 66(OA)
Antibiotics
  Oxoid Aura system as a semi-automated, standard antimicrobial susceptibility test method, 146(OA)
Antigens
  Unmasking antigens for immunohistochemistry, 190(BE)
Antioxidants
  Effect of L929 cell-conditioned medium on antioxidant capacity in RAW264.7 cells, 212(OA)
  Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
Anxiety
  Type A g-aminobutyric acid ($GABA_A$) receptor subunits and benzodiazepine binding: significance to clinical syndromes and their treatment, 111(BE)
Apolipoprotein A1 and B
  Effect of long-term storage at –20°C; and –80°C on apolipoprotein A1 and B in obese subjects, 30(BS)
Aspergillosis
  Pulmonary aspergillosis: clinical presentation, diagnosis and therapy, 197(RA)
Asthma
  Pulmonary aspergillosis: clinical presentation, diagnosis and therapy, 197(RA)
Automation
  Automated non-culture-based sequence typing of meningococci from body fluids, 230(OA)
  Improved detection of *Mycobacterium* spp. using the Bactec® MGIT™ 960 system, 154(OA)

Bartonella henselae
  Cat-scratch disease: epidemiology, aetiology and treatment, 101(BE)
Benzodiazepines
  Type A γ-aminobutyric acid ($GABA_A$) receptor subunits and benzodiazepine binding: significance to clinical syndromes and their treatment, 111(BE)

Blastocystis hominis
  Blastocystis hominis, 253(L)
  Blastocystis hominis: a common yet neglected human parasite, 129(L)
  Blastocystis hominis: a common yet neglected human parasite, author's reply, 130(L)
Blood pressure
  Angiotensin II type-1 receptor antagonist, CS-866, reduces blood pressure without affecting glucose/insulin metabolism in cholesterol-fed rabbits, 217(OA)
Book reviews
  Ashcroft FM
    Ion Channels and Disease, 256

Boric acids
  Chromogenic urinary tract infection medium: evaluation and introduction for routine urine culture in a large clinical microbiology laboratory, 207(OA)

Breast neoplasms
Effect of nitric oxide and malondialdehyde on sister-chromatid exchanges in breast cancer, 169(OA)
TGF-$ß_1$ is elevated in breast cancer tissue and regulates nitric oxide production from a number of cellular sources during hypoxia re-oxygenation injury, 177(OA)

Candida dubliniensis
Identification of *Candida dubliniensis*, based on ribosomal DNA sequence analysis, 11(OA)
Cardiovascular system
Cardiovascular risk: its assessment in clinical practice, 249(RA)
Cat-scratch disease
Cat-scratch disease: epidemiology, aetiology and treatment, 101(BE)
Cell line, RAW264.7
Effect of L929 cell-conditioned medium on antioxidant capacity in RAW264.7 cells, 212(OA)
Cervix dysplasia
Detection of high-risk subtypes of human papillomavirus in cervical swabs: routine use of the Digene Hybrid Capture™ assay and polymerase chain reaction analysis, 24(OA)
Cervix neoplasms
Hybrid capture as a means of detecting human papillomavirus DNA from liquid-based cytology specimens: a preliminary evaluation, 184(OA)
Cervix uteri
Human papillomavirus infection in non-neoplastic uterine cervical disease in Hong Kong, 85(OA)
Chlamydia infections
Detection of *Chlamydia trachomatis* in genitourinary medicine clinic attendees: comparison of strand displacement amplification and the ligase chain reaction, 235(OA)
Cholesterol, dietary
Angiotensin II type-1 receptor antagonist, CS-866, reduces blood pressure without affecting glucose/insulin metabolism in cholesterol-fed rabbits, 217(OA)
Chromogenic compounds
Chromogenic urinary tract infection medium: evaluation and introduction for routine urine culture in a large clinical microbiology laboratory, 207(OA)
Clinical isolates
In vitro activity of *Melaleuca alternifolia* (tea tree) oil against bacterial and *Candida* spp. isolates from clinical specimens, 139(OA)
Colon
Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
Coombs' test
False-positive serological tests in acute malaria, 20(OA)
Cotinine
Urine test for the assessment of smoking status, 61(OA)
Cryptosporidium
Acid-fast bodies in faecal smears stained by the modified Ziehl–Neelson technique, 7(OA)
Culture media
Chromogenic urinary tract infection medium: evaluation and introduction for routine urine culture in a large clinical microbiology laboratory, 207(OA)
Improved detection of *Mycobacterium* spp. using the Bactec® MGIT™ 960 system, 154(OA)
Cyclospora
Acid-fast bodies in faecal smears stained by the modified Ziehl–Neelson technique, 7(OA)
Cystic fibrosis
Pulmonary aspergillosis: clinical presentation, diagnosis and therapy, 197(RA)
Cytokine serum levels
Serum cytokine levels in psoriasis vulgaris, 40(BS)

Diagnostic test
Ammonia vapour in the mouth as a diagnostic marker for infection with *Helicobacter pylori:* preliminary 'proof of principle' pharmacological investigations, 66(OA)
Dietary supplementation
Dietary probiotic supplementation to enhance cellular immunity in the elderly, 94(BS)
1,2-Dimethylhydrazine
Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
DNA
c-kit mutation screening in patients with acute myeloid leukaemia: adaptation of a Giemsa-stained bone-marrow smear DNA extraction technique, 76(OA)
DNA, ribosomal, Identification
Identification of *Candida dubliniensis*, based on ribosomal DNA sequence analysis, 11(OA)
DNA fingerprinting
Helicobacter pylori detection in Chinese subjects: a comparison of two common DNA fingerprinting methods, 240(OA)
Drug resistance, microbial
Oxoid Aura system as a semi-automated, standard antimicrobial susceptibility test method, 146(OA)

Endothelial-cell damage
Platelet and endothelial-cell markers in meningococcal septicaemia: a report of two cases, 37(BS)
Environmental water pollution
Detection of viruses in environmental waters, 131(TA)
Enzymes
Effect of L929 cell-conditioned medium on antioxidant capacity in RAW264.7 cells, 212(OA)
Epilepsy
Type A g-aminobutyric acid ($GABA_A$) receptor subunits and benzodiazepine binding: significance to clinical syndromes and their treatment, 111(BE)
Erythrocytes
Pseudohyperkalaemia and pseudomacrocytosis caused by inherited red-cell disorders of the 'hereditary stomatocytosis' group, 48(RA)
Erythrocyte sodium concentrations
Effect of cell washing on erythrocyte sodium concentration in human hypertensive subjects, 92(BS)

Fibrinolysis
Lipid-lowering agents and fibrinolysis: lack of effect *in vitro*, 245 (BS)

Framingham equation
Cardiovascular risk: its assessment in clinical practice, 249(RA)

Gastritis
Seroprevalence of *Helicobacter pylori* infection in patients with gastritis and peptic ulcer in western Nigeria, 97(BS)
Genes, *por*A
Automated non-culture-based sequence typing of meningococci from body fluids, 230(OA)

Hantavirus pulmonary syndrome
The English 'sweate' (Sudor Anglicus) and Hantavarus pulmonary syndrome, 1(BH)
Head and neck neoplasms
In vitro inhibition of head and neck cancer-cell growth by human recombinant interferon-a and 13-*cis* retinoic acid, 226(OA)
Heating
Unmasking antigens for immunohistochemistry, 190(BE)
Helicobacter pylori
Ammonia vapour in the mouth as a diagnostic marker for infection with *Helicobacter pylori:* preliminary 'proof of principle' pharmacological investigations, 66(OA)
Helicobacter pylori - an overview, 59(BM)
Helicobacter pylori detection in Chinese subjects: a comparison of two common DNA fingerprinting methods, 239(OA)
Seroprevalence of *Helicobacter pylori* infection in patients with gastritis and peptic ulcer in western Nigeria, 97(BS)
HIV seroprevalence
False-positive serological tests in acute malaria, 20(OA)
Human immunodeficiency virus
Viral load *versus* p24 antigenaemia in human immunodeficiency virus infected patients, 246(BS)
Human leucocyte antigen matching
Human leucocyte antigen matching and cadaver renal transplantation in India, 255(L)

Hybrid capture assay
Detection of high-risk subtypes of human papillomavirus in cervical swabs: routine use of the Digene Hybrid Capture™ assay and polymerase chain reaction analysis, 24(OA)
Hybrid capture as a means of detecting human papillomavirus DNA from liquid-based cytology specimens: a preliminary evaluation, 184(OA)
Hypertension
Effect of cell washing on erythrocyte sodium concentration in human hypertensive subjects, 92(BS)
Hypoxia
TGF-β_1 is elevated in breast cancer tissue and regulates nitric oxide production from a number of cellular sources during hypoxia re-oxygenation injury, 177(OA)

Immunohistochemistry
Unmasking antigens for immunohistochemistry, 190(BE)
Immunosenescence
Dietary probiotic supplementation to enhance cellular immunity in the elderly, 94(BS)
Insulin
Angiotensin II type-1 receptor antagonist, CS-866, reduces blood pressure without affecting glucose/insulin metabolism in cholesterol-fed rabbits, 217(OA)
Interferon-a
In vitro inhibition of head and neck cancer-cell growth by human recombinant interferon-a and 13-*cis* retinoic acid, 226(OA)
Interleukin-12, exogenous
Modulation of *Porphyromonas gingivalis*-induced murine immune response *in vitro* by exogenous interleukin-12, 44(BS)
Isotretinoin
In vitro inhibition of head and neck cancer-cell growth by human recombinant interferon-a and 13-*cis* retinoic acid, 226(OA)

Journal-based learning, 56, 132, 206, 254

Kawasaki disease
Kawasaki disease — is it caused by an infectious agent?, 122(RA)
König reaction
Urine test for the assessment of smoking status, 61(OA)

Laboratory techniques and procedures
Detection of *Chlamydia trachomatis* in genitourinary medicine clinic attendees: comparison of strand displacement amplification and the ligase chain reaction, 235(OA)
Leukemia, myeloid
c-kit mutation screening in patients with acute myeloid leukaemia: adaptation of a Giemsa-stained bone-marrow smear DNA extraction technique, 76(OA)
Lipid-lowering agents
Lipid-lowering agents and fibrinolysis: lack of effect *in vitro*, 244 (BS)
Lung diseases
Pulmonary aspergillosis: clinical presentation, diagnosis and therapy, 197(RA)
Lung neoplasms
Assessment of murine lung tumour development: a comparison of two techniques, 159(OA)
Lymphatic diseases
Cat-scratch disease: epidemiology, aetiology and treatment, 101(BE)

Macrophage colony-stimulating factor
Effect of L929 cell-conditioned medium on antioxidant capacity in RAW264.7 cells, 212(OA)
Malaria
False-positive serological tests in acute malaria, 20(OA)
Malondialdehyde
Effect of nitric oxide and malondialdehyde on sister-chromatid exchanges in breast cancer, 169(OA)
Meningococcal infections
Meningococcal disease due to serogroup Y in Scotland, 1992-1999, 17 (OA)

Meningococcal septicaemia
Platelet and endothelial-cell markers in meningococcal septicaemia: a report of two cases, 37(BS)
Mice
Assessment of murine lung tumour development: a comparison of two techniques, 159(OA)
Microbial sensitivity tests
Oxoid Aura system as a semi-automated, standard antimicrobial susceptibility test method, 146(OA)
Microscopy
Assessment of murine lung tumour development: a comparison of two techniques, 159(OA)
Microwaves
Unmasking antigens for immunohistochemistry, 190(BE)
Minimum cidal concentration
In vitro activity of *Melaleuca alternifolia* (tea tree) oil against bacterial and *Candida* spp. isolates from clinical specimens, 139(OA)
Models, biological
Assessment of murine lung tumour development: a comparison of two techniques, 159(OA)
Mouth
Ammonia vapour in the mouth as a diagnostic marker for infection with *Helicobacter pylori:* preliminary 'proof of principle' pharmacological investigations, 66(OA)

Mucocutaneous lymph node syndrome
Kawasaki disease - is it caused by an infectious agent?, 122(RA)
Mycobacteriaceae
Improved detection of *Mycobacterium* spp. using the Bactec® MGIT™ 960 system, 154(OA)

Neisseria meningitidis
Automated non-culture-based sequence typing of meningococci from body fluids, 230(OA)
Meningococcal disease due to serogroup Y in Scotland, 1992–1999, 17(OA)
Nitric oxide
Effect of nitric oxide and malondialdehyde on sister-chromatid exchanges in breast cancer, 169(OA)
TGF-β_1 is elevated in breast cancer tissue and regulates nitric oxide production from a number of cellular sources during hypoxia re-oxygenation injury, 177(OA)

Obesity
Effect of long-term storage at –20°C; and –80°C on apolipoprotein A1 and B in obese subjects, 30(BS)
Oxidative stress
Effect of L929 cell-conditioned medium on antioxidant capacity in RAW264.7 cells, 212(OA)
Oxoid Aura system
Oxoid Aura system as a semi-automated, standard antimicrobial susceptibility test method, 146(OA)

Papillomavirus, human
Detection of high-risk subtypes of human papillomavirus in cervical swabs: routine use of the Digene Hybrid Capture™ assay and polymerase chain reaction analysis, 24(OA)
Human papillomavirus infection in non-neoplastic uterine cervical disease in Hong Kong, 85(OA)
Hybrid capture as a means of detecting human papillomavirus DNA from liquid-based cytology specimens: a preliminary evaluation, 184(OA)
Parasites, human
Blastocystis hominis: a common yet neglected human parasite, 129(L)
Blastocystis hominis: a common yet neglected human parasite, authors' reply, 130(L)
Blastocystis hominis, 253(L)
Peptic ulcers
Seroprevalence of *Helicobacter pylori* infection in patients with gastritis and peptic ulcer in western Nigeria, 97(BS)
Peptide hydrolases
Unmasking antigens for immunohistochemistry, 190(BE)

Platelet activation
Platelet and endothelial-cell markers in meningococcal septicaemia: a report of two cases, 37(BS)
Pleuran
Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
Pleurotus
Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
Polymerase chain reaction
Automated non-culture-based sequence typing of meningococci from body fluids, 230(OA)
c-kit mutation screening in patients with acute myeloid leukaemia: adaptation of a Giemsa-stained bone-marrow smear DNA extraction technique, 76(OA)
Detection of *Chlamydia trachomatis* in genitourinary medicine clinic attendees: comparison of strand displacement amplification and the ligase chain reaction, 235(OA)
Detection of high-risk subtypes of human papillomavirus in cervical swabs: routine use of the Digene Hybrid Capture™ assay and polymerase chain reaction analysis, 24(OA)
Helicobacter pylori detection in Chinese subjects: a comparison of two common DNA fingerprinting methods, 239(OA)
Human papillomavirus infection in non-neoplastic uterine cervical disease in Hong Kong, 85(OA)
Identification of *Candida dubliniensis*, based on ribosomal DNA sequence analysis, 11(OA)
Polymorphism, restriction fragment length
Helicobacter pylori detection in Chinese subjects: a comparison of two common DNA fingerprinting methods, 239(OA)
Polymorphism, single-stranded conformational
c-kit mutation screening in patients with acute myeloid leukaemia: adaptation of a Giemsa-stained bone-marrow smear DNA extraction technique, 76(OA)
Polysaccharides, bacterial
Meningococcal disease due to scrogroup Y in Scotland,

1992–1999, 17(OA)
Population surveillance
Human papillomavirus infection in non-neoplastic uterine cervical disease in Hong Kong, 85(OA)
Porphyromonas gingivalis
Modulation of *Porphyromonas gingivalis*-induced murine immune response *in vitro* by exogenous interleukin-12, 44(BS)
Precancerous conditions
Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
Probiotic *Lactobacillus* spp.
Dietary probiotic supplementation to enhance cellular immunity in the elderly, 94(BS)
Pseudohyperkalaemia
Pseudohyperkalaemia and pseudomacrocytosis caused by inherited red-cell disorders of the 'hereditary stomatocytosis' group, 48(RA)
Psoriasis vulgaris
Serum cytokine levels in psoriasis vulgaris, 40(BS)
Pulmonary aspergillosis
Pulmonary aspergillosis: clinical presentation, diagnosis and therapy, 197(RA)

Rabbits
Angiotensin II type-1 receptor antagonist, CS-866, reduces blood pressure without affecting glucose/insulin metabolism in cholesterol-fed rabbits, 217(OA)
Random amplified polymorphic DNA technique
Helicobacter pylori detection in Chinese subjects: a comparison of two common DNA fingerprinting methods, 239(OA)
Rats
Effect of pleuran (ß-glucan from *Pleurotus ostreatus*) on the antioxidant status of the organism and on dimethylhydrazine-induced precancerous lesions in rat colon, 164(OA)
Receptors, antiotensin/antagonists and inhibitors
Angiotensin II type-1 receptor antagonist, CS-866, reduces blood pressure without affecting glucose/insulin metabolism in cholesterol-fed rabbits, 217(OA)
Receptors, GABA-A
Type A g-aminobutyric acid ($GABA_A$) receptor subunits and benzodiazepine binding: significance to clinical syndromes and their treatment, 111(BE)
Renal transplantation
Human leucocyte antigen matching and cadaver renal transplantation in India, 255(L)
Restriction mapping
Identification of *Candida dubliniensis*, based on ribosomal DNA sequence analysis, 11(OA)
Retinoids
In vitro inhibition of head and neck cancer-cell growth by human recombinant interferon-a and 13-*cis* retinoic acid, 226(OA)
Rheumatoid factor
False-positive serological tests in acute malaria, 20(OA)
Risk assessment
Cardiovascular risk: its assessment in clinical practice, 248(RA)

Serologic tests
False-positive serological tests in acute malaria, 20(OA)
Serum p24 antigenaemia
Viral load *versus* p24 antigenaemia in human immunodeficiency virus infected patients, 246(BS)
Sister chromatid exchange
Effect of nitric oxide and malondialdehyde on sister-chromatid exchanges in breast cancer, 169(OA)
Smoking
Urine test for the assessment of smoking status, 61(OA)
Statins
Lipid-lowering agents and fibrinolysis: lack of effect *in vitro*, 245(BS)
Stomatocytosis
Pseudohyperkalaemia and pseudomacrocytosis caused by inherited red-cell disorders of the 'hereditary stomatocytosis' group, 48(RA)
Storage degradation
Effect of long-term storage at –20°C; and –80°C on apolipoprotein A1 and B in obese subjects, 30(BS)
Streptococcus pneumoniae
Identification of *Streptococcus pneumoniae* strains, 253(L)
Identification of *Streptococcus pneumoniae* strains — author's reply, 253(L)
Presumptive identification and reporting of *Streptococcus pneumoniae*, 130(L)
Sweating sickness
The English 'sweate' (Sudor Anglicus) and Hantavarus pulmonary syndrome, 1(BH)
Syphilis
False-positive serological tests in acute malaria, 20(OA)

Tea tree oil
In vitro activity of *Melaleuca alternifolia* (tea tree) oil against bacterial and *Candida* spp. isolates from clinical specimens, 139(OA)
Temperature
Pseudohyperkalaemia and pseudomacrocytosis caused by inherited red-cell disorders of the 'hereditary stomatocytosis' group, 48(RA)
Total nicotine metabolites
Urine test for the assessment of smoking status, 61(OA)
Transforming growth factor beta
TGF-$ß_1$ is elevated in breast cancer tissue and regulates nitric oxide production from a number of cellular sources during hypoxia re-oxygenation injury, 177(OA)
Tuberculosis
Tuberculosis today: a brief review, 137(BC)

Urinary tract infections
Chromogenic urinary tract infection medium: evaluation and introduction for routine urine culture in a large clinical microbiology laboratory, 207(OA)

Vaccination
Meningococcal disease due to serogroup Y in Scotland, 1992–1999, 17(OA)
Viral load measurement
Viral load *versus* p24 antigenaemia in human immunodeficiency virus infected patients, 246(BS)
Viral water pollution

Detection of viruses in environmental waters, 131(TA)
Viscosity of biological fluids
Measuring the effect of different agents on the viscosity of biological fluids: a novel method, 33(BS)

Ziehl–Neelson method
Acid-fast bodies in faecal smears stained by the modified Ziehl–Neelson technique, 7(OA)
